(*a*) Name in full.
(*b*) Father's name.
(*c*) Nationality or class, *i.e.*, European, Eurasian or Indian, of candidate; and if Indian, caste or tribe.
(*d*) Date of birth.
(*e*) Place of birth.
(*f*) Present address.
(*g*) Examinations passed.
(*h*) Thumb mark of candidate, left hand, to be made in the presence of a responsible person who knows candidate.
(*i*) Signature and address of above-mentioned witness.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates together with their registration statements which should be signed by the Examiner. The registration statements should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments, preference will be given to qualified persons who are already employed in the Department.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by the fee of Rupees ten, and the Registration statement prescribed in Rule 2 (4).

EDUCATION DEPARTMENT, BENGAL.

EDUCATIONAL NOTICE.

In supersession of the Notice published in Part IC of the Calcutta Gazettes *of 23rd and 30th March and of 6th and 13th April 1910.*

WITH reference to Government Notification No. 4305, dated 23rd November 1909, in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to VI, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals :—

0, 1, 2, etc., 9.

2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.

3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional *Subhankari* syllabus to be taught in middle vernacular and upper primary schools.

PRELIMINARY FORECAST OF THE EARLY VARIETY OF THE SESAMUM CROP OF BENGAL FOR THE YEAR 1910.

THE following note is published for general information.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

The 25th April 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE EARLY VARIETY OF THE SESAMUM CROP OF BENGAL FOR THE YEAR 1910.

(On an average of the five years ending 1907-08 the area under *til* in the territory to which this forecast relates represents about 5·7 per cent. of the total area under this crop in British India.)

Explanatory.—This forecast deals with the preliminary estimates of the area and outturn of the early variety of the crop.

Character of the season.—Of the 21 districts in which the crop is cultivated Midnapore is the most important. Sowings commenced at the normal time in almost all the districts. In parts of Midnapore, however, want of moisture was felt at the time of sowing and in the early period of the growth. A fair crop is expected this year. Sowings have not yet begun in the 24-Parganas, Cuttack, Balasore and Sambalpur and also in the greater part of Nadia and Jessore where they commence later.

Area sown.—The total area sown up to now is reported to be 30,100 acres. Last year's area under the crop was shown as 35,800 acres. The complete report on the general character of the crop will be given in the final forecast which will be issued in August next.

W. H. BUCHAN,

Offg. Director of Agriculture, Bengal.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⚡, strongwind; p, passing temporary showers; o, overcast; K, thunderstorm.

EDUCATIONAL NOTICE.

In supersession of the Notice published in Part IC of the Calcutta Gazettes *of 23rd and 30th March and of 6th and 13th April 1910.*

WITH reference to Government Notification No. 4305, dated 23rd November 1909, in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to VI, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals :—

0, 1, 2, etc., 9.

2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools,—high, middle and upper primary—might otherwise constitute a difficulty in purely vernacular schools.

3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional *Subhankari* syllabus to be taught in middle vernacular and upper primary schools.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

SIBPUR, *the 7th May 1910.*

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 4th July 1910.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. Government scholarships of the value of Rs. 7 a month, tenable one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code for European Schools.
(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 5th and 6th July, respectively, from 6 A.M. to 9 A.M. each day.

7. Candidates for admission must apply to the Principal not later than the 28th June. Their application must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.
(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father with his family has taken up their residence in Bihar.)
(*c*) A certificate of good moral character from last head-master.
(*d*) An attested certificate of age (showing that he is under 20 years of age).
(*e*) A medical certificate showing him to be fit for employment in the public service.
(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

Candidates for the Amin class, who have not passed the Middle English or Middle Vernacular examination, will be examined at the school on the 7th July; candidates failing at this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 4th July 1910 unless application for admission is made before 28th June 1910.

10. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians, whose homes are near enough to enable them to attend the school at the required times. The Principal will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.

No. 561 T.—Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Darjeeling, the 3rd May 1910.

RESOLUTION.

Howrah Bridge Budget Estimate for the year 1910-11.

READ—

Letter No. 573, dated the 16th April 1910, from the Vice-Chairman of the Commissioners for the Port of Calcutta, submitting the Budget Estimate of the Howrah Bridge for the year 1910-11.

Receipts.—The receipts for the year 1910-11 have been estimated at Rs. 2,30,800, against Rs. 2,30,600, the estimated receipts for 1909-10, showing a small increase of Rs. 200.

2. *Expenditure.*—The expenditure is estimated at Rs. 2,28,949 as against Rs. 2,14,635, the estimated expenditure during the previous year. The increase is due, mainly, to the increased provision necessary for the efficient repair and maintenance of so old a bridge. The year is expected to close with a credit balance of Rs. 1,851.

3. The Lieutenant-Governor accepts the estimate under section 21 of the Howrah Bridge Act, IX of 1871.

By order of the Lieutenant-Governor of Bengal,—

T. BUTLER,

Secy. to the Govt. of Bengal.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

Substitute the following for the existing rules bearing the same numbers :—

CHAPTER III.—LANDLORDS' IMPROVEMENTS.

13. *Section 80.*—An application for the registration of landlords' improvements may be presented to the Collector of the district, or to the officer in charge of the subdivision, in which the land benefited by the improvement is situated, or to any Assistant or Deputy Collector who may be specially appointed by Government to receive such application. The application shall, as far as practicable, be in the form (Form 1) specified in Schedule I appended to these rules, and the requisite information shall be submitted, along with the application, in the form of List A., appended to the said Form 1.

Application for registration of improvements: to whom to be presented.

13A. Alternative methods of filling up columns 12 to 16 of List A are provided. The first method is intended for cases in which only a small number of holdings are benefited, and the second for cases in which the whole village or a considerable proportion of the holdings is benefited. It will be open to the applicant, in the first instance, to select the method which appears to him more appropriate; but if he selects the second method, the revenue officer may, if he thinks fit, require List A to be filled up in the first method. If the revenue officer admits the application he will at the same time pass orders to the applicant to submit notices in Form 19 on tenants or villages concerned, in sufficient number to meet the requirements of these rules.

14. The officer receiving the application may either reject the application under section 80 (*3*) or may admit it. If the application is admitted, a local inquiry will be held. A date will be fixed for that inquiry, and the applicant or his agent will be informed of this date. Notices in Form 19 will be sent to the tenants (if any) whose names are entered in column 12 of List A. In addition a notice in Form 19 will be served in each village concerned. In this notice will be specified the date and approximate hour when the inquiry will be held in that village, and the tenants concerned therein will be directed to attend the inquiry. The notice will be published locally by proclamation and beat of drum, and will be fixed up in the presence of not less than two persons in some conspicuous place in the village. The service of the notice must be attested by at least two residents of the village (or, in the case of a *beshappar* village, of a contiguous village), on the back of the duplicate notice. Special care must be taken to ensure that with each notice is appended a correct copy of List A or the extracts therefrom which refer to the village or tenant addressed in the notice.

The expense of sending and publishing notices under this rule and under rule 16 shall be borne by the applicant.

15. The Collector or subdivisional officer who received the application may transfer the case to the file of another officer empowered to receive such applications. If it is not so transferred, he may either make the local inquiry himself or he may direct it to be made by an officer not below the rank of Sub-Deputy Collector. When the officer who receives the application is not the Collector or a subdivisional officer, he may in a similar manner transfer the case or direct a local inquiry, with the consent of the Collector or subdivisional officer. This local inquiry will be held on the day and time specified in the notice. Such of the parties and their witnesses as attend and may desire to give evidence shall be examined, and such inspection of the land concerned as is considered necessary shall be made. In the record of this inquiry it shall be clearly stated which of the tenants were examined; and if any offered themselves for examination and were not examined, their names and the reasons for not examining them shall be recorded. The inquiring officer must make an inquiry in each village the lands of which are affected by the improvement.

Further inquiry, if any, and disposal of the case.

16. The officer who has received the application shall then either forthwith, or, if further inquiry is necessary, after giving notice of such further inquiry to the parties concerned, and holding such inquiry or causing it to be held by an officer not below the rank of Sub-Deputy Collector, who is empowered to receive such application, proceed to pass orders on the case.

Circumstances to be taken into consideration in disposing the case.

17. In passing orders he shall decide *inter alia* whether the improvement is of such a nature as to come within the meaning of section 76 of the Bengal Tenancy Act or not; whether the landlord is entitled to register it; whether it falls under sub-clause (*e*) of that section, and, if so, whether any enhancement of rent is being paid for the original improvement, and whether the cost of improvement and the date of completion have been correctly stated in the application.

Confirmation of order of refusal passed by officer lower in rank than Collector.

18. If an order refusing to register an improvement is passed by an officer lower in rank than the Collector of the district, such order shall not take effect till confirmed by the Collector.

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 4th July 1910.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. (1) The Entrance Examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code for European Schools.
(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 5th and 6th July, respectively, from 6 A.M. to 9 A.M. each day.

7. Candidates for admission must apply to the Principal not later than the 28th June. Their application must give the following particulars:—

In the Amin class the course of study is for one year, and the monthly fee is Re. 1 An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR APRIL 1910.

I. *Character of the season.*—The rainfall was general all over the Province. The fall was in excess of the normal in Bengal Proper and Chota Nagpur and in Orissa it was almost equal to the average. In Bihar the rainfall was in defect, the fall being about half of the normal. The statement showing the average rainfall district by district during the month under review is appended.

II. *Progress of agricultural operations.*—Planting of sugarcane and preparation of lands for the next season's crops continued during the month. Harvesting of *rabi* crops was nearly completed. In the early part of the month want of sufficient moisture was felt for ploughing operations in parts of the Presidency Division, but the rain received towards the end of the month did much good in facilitating cultivation.

III. *State of standing crops.*—The newly-planted sugarcane crop and vegetables are doing well.

IV. *Prospects and probable outturn of harvests.*—The *rabi* harvest has been fairly good. The outturn of these crops has been estimated at 90 per cent. of the normal.

V. *Damage to crops.*—There was no serious damage to the standing crops owing to any abnormal causes. They were damaged by a heavy storm in parts of Bhagalpur. Some damage was also done by hail in Murshidabad.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was on the whole good. Cases of cattle-disease were reported from Burdwan, Midnapore, Nadia, Jessore, Patna, Gaya, Champaran, Darbhanga, Monghyr, Purnea, the Sonthal Parganas, Angul, Sambalpur, Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum.

VII. *Failure of pasturage and fodder.*—The supply of fodder was sufficient throughout the Province, except in parts of the Sonthal Parganas. The water-supply was reported to be getting scarce in Angul.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of common rice rose in fifteen and fell in five districts. Prices of staple food-grains were lower than in the corresponding period of last year.

IX. *Condition of agricultural people.*—The outturn of the three harvests has been good. The condition of agriculturists is good.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF JANUARY 1910.

THE weather over the reporting area is as a rule in January of a fairly uniform character and is mainly varied by the eastward passage of depressions or cold weather storms, which originate in Persia or form as secondary depressions under the influence of primary depressions from that country.

During the first week of the month there was widespread precipitation in Chota Nagpur, but in the rest of the Division weather was dry. Skies were cloudy in the western districts and as a consequence night temperature was in considerable excess in Chota Nagpur and Orissa. At the end of the week a depression which formed in Gujrat travelled eastwards across the two Provinces and gave numerous showers in the south of Eastern Bengal and Bengal excluding Bihar and local rain to Assam. This depre sion gradually filled up and on the 13th skies were clear throughout the Division. Night temperatures were in considerable excess during the cloudy weather produced by the disturbed conditions. On the 13th another depression was affecting Beluchistan, which travelled in an easterly direction across Northern India to Burma. This depression affected the area under report to a slight extent only, light rain falling in the Upper Brahmaputra valley and a few drops in Bihar, while a cold wave following its rear reduced the temperature from the 13th onwards. During the remaining days of the month weather was generally fine with skies clear or lightly clouded and temperature normal or in slight defect.

Summary of temperature.—Mean temperature was in defect everywhere, except in Orissa, where it was in slight excess. The highest and lowest temperatures, viz., 87° 6 and 40° respectively were recorded at Daltonganj.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Eastern Bengal and Assam and of Bengal for the month of January 1910:—

METEOROLOGICAL DIVISIONS.	TEMPERATURE.

Summary of rainfall.—The rainfall work of the area under report has been handed over to the Director of Agriculture. A short table, however, is attached to this report, giving actual and normal rainfall recorded at the principal stations of each district.

Rainfall was in defect over the whole reporting area, except in Calcutta, Burma, Chota Nagpur and parts of Orissa Division, where it was in slight excess.

Actual and average rainfall and departure from normal for January 1910.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

BIHAR SCHOOL OF ENGINEERING.

PROSPECTUS FOR ADMISSION.

THIS school is under the management of the Principal, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Majesty the King when Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The school was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60. Preference is to be given to Biharis. Failing, however, a sufficient number of Bihari applicants, students who are natives of other provinces may be admitted, preference being given to Bengalis domiciled in Bihar over non-domiciled Bengalis or other applicants.

As far as accommodation is available, students who have passed the final "B" Class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference again being given to Biharis and domiciled Bengalis.

3. The school, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers, Overseers and Upper Subordinates.

Students are prepared for the examinations conducted by the Joint Technical Examination Board.

4. The next session will commence on 4th July 1910.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Sibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. Government scholarships of the value of Rs. 7 a month, tenable one year, are awarded each year on the results of the annual examination, *eight* being tenable in the second-year class, *six* in the third-year class, and *six* in the fourth-year class. Of the scholarships attached to the school, 75 per cent. are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance Examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code for European Schools.
(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the University Matriculation examination in these subjects) to be held at the school, on the 5th and 6th July, respectively, from 6 A.M. to 9 A.M. each day.

7. Candidates for admission must apply to the Principal not later than the 28th June. Their application must give the following particulars:—

(*a*) Name, address, and occupation of father or guardian.
(*b*) Race and religion. (A domiciled Bengali must produce evidence to show that his father with his family has taken up their residence in Bihar.)
(*c*) A certificate of good moral character from last head-master.
(*d*) An attested certificate of age (showing that he is under 20 years of age).
(*e*) A medical certificate showing him to be fit for employment in the public service.
(*f*) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.

8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught elementary surveying with a corresponding amount of mathematics and of geometrical drawing. He will not be admitted to the workshop. A student in the first-year class of the Overseer Department, who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of elementary surveying and the other subjects taught in the Amin class may, at his option, leave the school with an Amin certificate.

Candidates for the Amin class, who have not passed the Middle English or Middle Vernacular examination, will be examined at the school on the 7th July; candidates failing at this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 4th July 1910 unless application for admission is made before 28th June 1910.

10. There is a hostel in connection with the school. The fees are Re. 1-8 for room and Re. 1 for light. Students make their own mess arrangements. Students joining the Overseer classes must reside in the hostel unless they are residents with parents or with nearly related guardians, whose homes are near enough to enable them to attend the school at the required times. The Principal will decide whether a student should reside in the school hostel, or whether the guardian proposed can be accepted as such.
